

**KEY PERSONNEL:**

Arthur D. Hart, CEO

**Cage Code:** 6WY63  
**DUNS #:** 020746879  
**Clearance:** Secret and Public Trust

**CORE COMPETENCES:**

**Cyber Security Engineering**

- ACAS, HBSS, & DISA STIGS
- Security Implementation
- Security Architecture Services
- Security Development & Testing
- Trusted Internet Connection

**Cyber Workforce Development**

- CISSP Prep Course
- Customized Training
- Cyber Awareness Workshop
- Security Plus
- Vulnerability Scanning & Remediation

**Enterprise Security Services**

- Configuration Management
- Data Security
- End Point Security Integration
- Security Tools
- Security Policies

**Security and Risk Management**

- FISMA & FedRAMP Guidance
- Governance Risk & Compliance
- NIST Risk Management Framework
- Risk Assessment & Software Assurance
- Vulnerability Management

**COPORATE DATA**

SEMAIS is a Department of Veteran Affairs Certified SDVOSB that delivers Cyber Security solutions and IT Staffing Service to public and private organizations. The core competences operate within a customer business model to mature their risk management program and security state of readiness. SEMAIS focus on building security controls into the system early in the development lifecycle and introduces a set of defined roles and structured processes to guide the development, authorization, operation, and subsequent operations for securing systems. Our solutions provide value through assessing and aligning cyber security workstreams for business growth, cost-savings, and risk reduction; which includes integrating safeguards, engineering a continuous monitoring strategy, designing practices to implement ePHI, PII, and streamlining security related tasks to support technology innovation and changes. SEMAIS performs Security Control Assessment (SCA) that includes testing and vulnerability scanning to validate policies, regulation, Security Technical Implementation Guide's (STIGS) and risk mitigation based on AR25-1, AR25-2, DoD 8500, FedRAMP, FIPS 199, FIPS 200, FISMA, HIPAA, HITECH, ISO 2700, NIST: 800-18, 800-30, 800-37, 800-39, 800-53, 800-53A, 800-60., OMB-130; and applicable procedures to deliver RMF Security Assessment and Authorization (SA&A) requirements.
